Experience

Full Stack Developer Graduated Student

July 2022 to Present

CodeYourFuture - London, UK

Graduated from an immersive over one-year full stack software development training program.

Proactive:

- Gained hands-on experience in HTML, CSS, Git, JavaScript, React.js, Node.js, Next.js, and SQL by dedicating over 30 hours per week to practical projects, meeting deadlines.

Effective Communication:

- Facilitated smooth communication across team, promptly resolving issues, led to delivering the project three days ahead of the deadline.
- Implemented Agile methodologies and best practices to achieve the project's objectives, actively participating in and completing four Sprints.

Teamwork Collaboration

- Collaborated with three fellow trainees on projects, practising pair programming and teamwork.
- Applied conflict resolution techniques to mediate and resolve team disputes and increased team productivity by implementing two times more features.
- Achieved a 100% resolution rate, assisting each team member in overcoming blockers.

Efficiency:

- Improved Final Project application performance, reducing running time by over 75%.
- Learned and applied new technologies, like Prisma, Tailwind CSS, Next.js, to the final project in five days.

🏆 **Achievement:** Delivered the Good-PR application that measured the performance of 100% of CodeYourFuture final teams which led to joining the production team.

Administrative Assistant

August 2022 - present

CGM Drylining Ltd, London, UK

- Created invoices using Microsoft Word and Excel.
- Managed the preparation of comprehensive price lists.
- Managed documents and emails.
- Ensured accuracy and organisation in all documentation.
- Facilitated smooth communication.

Education

Full Stack Developer Trainee

July 2022 - July 2023

CodeYourFuture, London, UK

- Completed the Full Stack Development one year training program by investing more than 100 hours per month in project development, culminating in the successful creation of a highly acclaimed application.

BSc (Hons) in Computing

February 2022 to February 2023

Falmouth University - London, UK

Grade: First Class Honours

Ambition and Motivation:

- Demonstrated through the commitment to being a top student with First Class Honours.
- Expanding expertise in both software development, specifically ASP.NET, and network administration by acquiring proficiency in designing and implementing WAN/LAN networks.
- Evident in the focus on network design principles, ensuring scalability, maintainability, and reliability in architecture.
- Demonstrated through the implementation of network security measures, including DMZ, Firewall, and access control.
- Displayed in the creation of embedded systems using sensors like LDR, motion detector, DHT11, MQ135, showcasing a specialisation in IoT.

Project Management:

- Shown through the creation of two embedded systems during the final term, indicating effective project management and completion.

 **Achievement:** Created an intelligent door lock based on vocal recognition for the dissertation, showcasing cutting-edge technologies and innovative solutions.

BTEC HND in Computing

February 2020 to February 2022

Icon College - London, UK

Grade: Merit

Efficiency

- Understand, evaluate, synthesise, and apply complex ideas.

Database Design

- Designing and implementing relational databases in SQL.

Cyber Security Awareness and Networking

- Awareness over cyber threats and implementation of network security measures like policy, DMZ, Firewall.
- Practical application of designing and implementing network infrastructure, illustrating a strong hands-on understanding of network configurations and architectures.

Volunteering

Full Stack Developer

July 2023 to present

Contributing to the ongoing development and enhancement of the Good-PR application.

- **Reliable and Perseverant**

Played a key role in the successful implementation of over 50% of new feature for the Good-PR application.

Collaborated on database optimisation and integration of GitHub API.

Certificate

PYTHON PCEP - Certified Entry-Level Python Programmer

July 2023 to present
